

Chemistry, Hybrid Edition (with OWLv2, 4 terms (24 months) Printed Access Card) (Mixed media product)

Filesize: 6.69 MB

Reviews

This is the best book i have read until now. It can be filled with knowledge and wisdom Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Nadia Konopelski)

Cengage Learning, Inc, United States, 2013. Mixed media product. Condition: New. 9th edition. Language: English . Brand New Book. Reflecting Cengage Learning s commitment to offering flexible teaching solutions and value for students and instructors, this new hybrid version features the instructional presentation found in the printed text while delivering all the end-of chapter exercises online in OWL, the leading online learning system for chemistry. The result-a briefer printed text that engages you online! This fully updated Hybrid Edition of Steven and Susan Zumdahl s **CHEMISTRY 9e** brings together the solid pedagogy, easy-to-use media, and interactive exercises that today s instructors need for their general chemistry course. Rather than focusing on rote memorization, **CHEMISTRY** uses a thoughtful approach built on problem-solving. For the Ninth Edition, the authors have added a new emphasis on critical systematic problem solving, new critical thinking questions, and new computer-based interactive examples to help students learn how to approach and solve chemical problems-to learn to think like chemists-so that they can apply the process of problem solving to all aspects of their lives. Students are provided with the tools to become critical thinkers: to ask questions, to apply rules and develop models, and to evaluate the outcome. In addition, Steven and Susan Zumdahl crafted ChemWork, an online program included in OWL Online Web Learning to support their approach, much as an instructor would offer support during office hours. ChemWork is just one of many study aids available with **CHEMISTRY** that supports the hallmarks of the textbook-a strong emphasis on models, real world applications, visual learning, and independent problem solving.
