Pages Number: 253 Publisher: Beijing Aerospace University Press Pub. Date :2009-08. system identification and adaptive control of MATLAB simulation. MATLAB simulation and visualization from the perspective of simulation starting a systematic introduction to system identification and adaptive control of the basic theory and methods. System identification and adaptive control MATLAB simulation is divided into six chapters. 1 to 5 main contents are: Introduction. system identification. model reference adaptive control. self-tuning control (including the generalized predictive control). based on conventional control strategies such as self-tuning control. each algorithm is equipped with a MATLAB simulation program. Simulation results and a brief analysis of simulation results; Chapter 6 details the visual programming tool based on VB and Delphi s system identification and adaptive control of the simulation. System identification and adaptive control MATLAB simulation content concise. systematic and practical. can be used as automation-related professional senior undergraduate and graduate teaching. also available in automatic control theory and technology personnel to read reference. The book s source code for all instances. the reader can go to <http://WWW.buaapress.com.cn> download. Contents: Chapter 1 Introduction 1.1 1.2 adaptive control of the problem the type of adaptive control model reference adaptive control system 1.2.1 1.2.2 1.2.3 Intelligent self-tuning adaptive control system. control system 1.2.4 Other forms of self- adaptive control system 1.3 1.3.1 Application of adaptive control in the industry 1.3.2 Typical applications in non-industrial areas in the application of 1.4 adaptive control problems and development Chapter 2 Overview of System Identification System Identification 2.1 2.1 .1 mathematical model and system identification modeling method 2.1.2 The definition and classification of 2Four Satisfaction guaranteed, or money back.
