Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Wine, Women, and Song: Mediaeval Latin Students Songs, Now First Translated Into English Verse; With an Essay When we try to picture to ourselves the intellectual and moral state of Europe in the Middle Ages, some fixed and almost stereotyped ideas immediately suggest themselves. We think of the nations immersed in a gross mental lethargy; passively witnessing the gradual extinction of arts and sciences which Greece and Rome had splendidly inaugurated; allowing libraries and monuments of antique civilisation to crumble into dust; while they trembled under a dull and brooding terror of coming judgment, shrank from natural enjoyment as from deadly sin, or yielded themselves with brutal eagerness to the satisfaction of vulgar appetites. Preoccupation with the other world in this long period weakens man's hold upon the things that make his life desirable.
