Bulletin Volume 6-7

By Southern California Sciences

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 edition. Excerpt: . . . with the air, and the dust-like debris slowly settles to the earth's surface. Number Daily Simple means will serve to effect a fairly accurate count of the number of shooting stars visible at a given place during a definite period. At a selected station in an open space erect a pole 6 feet high. Trace from it on the ground two lines diverging 45 degrees half a right angle. On each line, at a distance of 6 feet from the pole, drive a stake. Connect these stakes by a stout string 3/2 feet above the ground, and from each stake, at that height, stretch a string to the top of the pole. In Fig. 4, A is the station, Aa the pole. At distances and heights stated, the stakes Kb and Cc arc connected by string be; and strings stretch from a to b and...

Reviews

The most effective ebook i possibly go through. I am quite late in start reading this one, but better then never. Its been designed in an extremely basic way and it is just after i finished reading this ebook by which basically transformed me, modify the way i believe.

-- **Giovanny Rowe**

Basically no words to describe. It is filled with knowledge and wisdom I am just pleased to let you know that this is actually the greatest publication i have read within my individual lifestyle and may be he best publication for at any time.
