## RIDGE AUGMENTATION

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Extraction of tooth usually results in unaesthetic contours of the ridge and inadequate bone to successfully place dental implants. Implants are increasingly used these days for the fixed replacement of natural tooth. So for the successful placement and integration of implants in the alveolar bone there are some situations in which the bone of soft tissue needs to be augmented for a variety of reasons like aesthetics and function. this book..

## Reviews

*This publication can be really worth a go through, and superior to other. It is amongst the most amazing publication we have go through. You wont feel monotony at anytime of your own time (that's what catalogues are for about when you request me).*

-- **Ms. Elda Schaden MD**

*This is actually the very best book i actually have read till now. This is for all those who statte that there was not a worth studying. Its been written in an remarkably straightforward way which is merely following i finished reading this publication by which in fact altered me, modify the way i believe.*

-- **Mr. Jeramy Leuschke IV**

*Good e book and valuable one. Better then never, though i am quite late in start reading this one. You are going to like how the article writer publish this publication.*

-- **Malcolm Block**
