An Annotated List of Experiments in Physics Used at the University of Cincinnati in the Courses in Experimental Physics Designed for Sophomore Students of the Academic and Engineering Colleges (Classic Reprint) (Hardback)

By James Edmund Ives

Forgotten Books, 2017. Hardback. Condition: New. Annotated edition. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from An Annotated List of Experiments in Physics Used at the University of Cincinnati in the Courses in Experimental Physics Designed for Sophomore Students of the Academic and Engineering Colleges This is not intended to be a course in Experimental Physics, but, as its title implies, merely an annotated list of some 270 experiments, any one of which might be profitably performed by a sophomore student in college. As a rule no attempt has been made to describe the experiment, but a reference has been given to a full description of it in a standard manual or text book. In the references, for the sake of brevity, the name of the author has been given without the title of the work. Below, therefore, is a list of the books referred to with their publishers: Ames and Bliss, Experiments in Physics, Harper Brothers, 1898. Barker, Physics, second edition, Henry Holt Co. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art..
