CREDIT SCORE (UNITED STATES)

Alphascript Publishing Dez 2009, 2009. Taschenbuch. Condition: Neu. Neuware - A credit score in the United States is a number representing the creditworthiness of a person or the likelihood that person will pay his or her debts. It has shown to be very predictive of risk, made credit more widely available to consumers and lowered the cost of providing credit. A credit score is primarily based on a statistical analysis of a person's credit report information, typically from the three...
