a.k.a. publishing Pty Ltd, Australia, 2014. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.Of the five senses, vision is the most astonishing. This is how we weave our way through the world. And although the eye has evolved over millions of years to give us crystal clear vision, it is a modern day phenomenon that, in evolutionary terms, our eyesight is going backwards. Due to presbyopia, we are now dependent on reading glasses for half our lives. In parts of East Asia up to 90 of school leavers are now short-sighted. This has been attributed to work, study and lifestyle factors as well as the ageing of the population. And whilst we all know there have been some amazing advances in modern medicine, what seems to have escaped everyone s attention is the revolution that has taken place in laser eye surgery. Two gifted Australian surgeons, Professor Gerard Sutton and Dr Michael Lawless, now recognised as being among the best ophthalmologists in the world in their field, were there from the beginning of this revolution. From London to New York, New Orleans and Bogota they worked side by side with the legendary pioneers of eye surgery creating history as it happened. Sutton and Lawless have written this informative, authoritative and entertaining insight into laser vision correction and what it means for you. It s all here in The Naked Eye, an easy-to-read and jargon-free account of everything you ever wanted to know about laser eye surgery. They explain everything from 20/20 vision to the magic of the femtosecond laser. They pull apart myths, tell you some of the fascinating history of the science, and give you all you need to know on the latest surgical procedures. This is the...
