MODELLING EYE-HAND MOVEMENTS IN DIFFERENT VISUAL FEEDBACK CONDITIONS

Shaker Verlag Nov 2012, 2012. Taschenbuch. Condition: Neu. Neuware - For the integration with the environment, people grasp and manipulate objects with hands. The tasks are followed and controlled with eyes. The interaction between sensory information is a part of a complex control loop which must be determined. For the control loop, it is necessary to measure influences between the visual perception and the execution of the movements. In this case, a simple test of angular reproduction, as in gait...

Basically no words and phrases to describe. It is really simplified but unexpected situations in the fifty percent of your book. I am delighted to let you know that here is the very best publication i have got go through within my very own lifestyle and might be he greatest publication for actually.

-- **Watson Kohler**

It is really an awesome ebook that we actually have actually study. It can be loaded with wisdom and knowledge. Once you begin to read the book, it is extremely difficult to leave it before concluding.
