Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from History of the Life of Lorenzo Sawyer: A Character Study Except for such rudiments of education as could be acquired at the district schools, and for a year or two of study at the Black river and other institutes, Mr Sawyer was entirely self-taught. From early boyhood his evenings and most of the few play hours that fell to his share were devoted mainly to books, pitch pine and tallow candles, furnished him light. There was no gas in those days. At Rutland, some three miles from his home was a public library of well selected works, of which he was not slow to avail himself, riding into town to exchange his books as soon as he had mastered their contents. Mathe maties and the physical sciences were his favorite subjects, and like others who have attained to eminence in his profession, he was a natural mathe matician. The knowledge which he acquired at school, or from private study, he made more thoroughly his own by teaching, the best of all means of gaining a thorough mastery of a subject, and of discovering one s own deficiencies. Among other places where his services were in demand was the town of Southport, in New York state, where the population was one of more than average intelligence, including several retired merchants from New York city, whose children were placed under his charge.
