Reviews

This pdf is definitely worth getting. Better than never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

Rutgers University Press, United States, 2016. Hardback. Condition: New. Language: English . Brand New Book. Mary Shelley s 1818 novel Frankenstein is its own type of monster mythos that will not die, a corpus whose parts keep getting harvested to animate new artistic creations. What makes this tale so adaptable and so resilient that, nearly 200 years later, it still seems vitally relevant in a culture radically different from the one that spawned its birth? Monstrous Progeny takes readers on a fascinating exploration of the Frankenstein family tree, tracing the literary and intellectual roots of Shelley s novel from the sixteenth century and analyzing the evolution of the book s figures and themes into modern productions that range from children s cartoons to pornography. Along the way, media scholar Lester D. Friedman and historian Allison B. Kavey examine the adaptation and evolution of Dr. Frankenstein and his monster across different genres and in different eras. In doing so, they demonstrate how Shelley s tale and its characters continue to provide crucial reference points for current debates about bioethics, artificial intelligence, cyborg lifeforms, and the limits of scientific progress. Blending an extensive historical overview with a detailed analysis of key texts, the authors reveal how the Frankenstein legacy arose from a series of fluid intellectual contexts and continues to pulsate through an extraordinary body of media products. Both thought-provoking and entertaining, Monstrous Progeny offers a lively look at an undying and significant cultural phenomenon.
