Oxford University Press Inc, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book. Classic and Contemporary Perspectives in Social Psychology illuminates the dynamic linkages among social organization, interaction processes, attitudes, and the self. It exposes students to the broad range of topics of interest to social psychologists and to the diverse methods that they use. Bringing together a wide variety of captivating classic and contemporary selections, this anthology includes work from a symbolic interactionist perspective as well as studies informed by expectation states theory, experimental social psychology, and life course sociology. The selections address the social psychological underpinnings and outcomes of group dynamics, social stratification, bureaucracy, deviant behavior, globalization, and technological change. The reader's innovative structure allows students to experience the foundational work of influential sociologists and psychologists through the lens of cutting-edge issues. This groundbreaking collection features brief excerpts from the classic literature of social psychology (by Emory Bogardus, Melvin Kohn, Stanley Milgram, Muzafer Sherif, Philip Zimbardo, and others). These texts are paired with explanatory comments by the editors and contemporary writings that show the earlier studies' relevance to contemporary social issues. Classic and Contemporary Perspectives in Social Psychology is enhanced by several pedagogical features, including introductory comments that highlight the connections between the classic and contemporary selections, highly engaging discussion questions for each article and unit, and a wide variety of supplemental resources (readings, websites, films, and radio programs). It is ideal for both undergraduate and graduate courses in social psychology.
