Leonaur Ltd, United States, 2008. Paperback. Book Condition: New. 213 x 137 mm. Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The second volume about the sea war between the old and new world The focus of most of the Western world was upon the great wars between Revolutionary France and latterly the First Empire of the Emperor Napoleon and the hereditary imperial powers of the Continent. Years of warfare had ravaged Europe from the scorching lands of southern Spain to the frozen wastes of the Russian winter. On the high seas great captains had made their reputations, won famous battles from the Nile to Trafalgar and its most renowned celebrity Nelson had fallen, becoming its most enduring symbol and hero, lending his name to this memorable period of the age of sail. Across the Atlantic Ocean all was not still. In 1812 not half a century had passed since the American nation had forged its independence in blood. Old enemies and old alliances remained strong in the minds of all concerned. Canada still flying the Union flag remained omnipresent as the nearest neighbour of the emergent nation. The War of 1812 is most often remembered for the burning of Washington and Andrew Jackson s crushing defeat of British forces at New Orleans. The war was, however, pursued just as actively at sea, upon and across the great oceans and within the seaways and lakes of the New World itself. Here Britannia did not always rule the waves. This magnificent in-depth two volume history of the Naval War of 1812 is a classic in both its depth and detail; it is essential reading for all those interested in war at sea.
