## Hazardous Materials: Fort Benjamin Harrisons Compliance with Environmental Laws: Nsiad-90-88

By -

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 40 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO provided information regarding the Army's compliance with environmental laws at Fort Benjamin Harrison, focusing on: (1) landfills leaching into groundwater; (2) air pollution systems for coal-fired boilers; (3) a hazardous waste storage site; and (4) a pesticide storage building. GAO found that: (1) the Army corrected one landfill's erosion and soil cover problem; (2) since test results were inconclusive for the other landfill, the state would perform further testing for contaminants; (3) the Army phased out four coal-fired boilers and installed gas-fired boilers; (4) the Environmental Protection Agency cited the Army for noncompliance with hazardous waste laws; and (5) the Army evaluated and suggested upgrades to the pesticide storage site to reduce potential hazards. This item ships from La Vergne, TN. Paperback.
