INFORMATION SYSTEMS/TECHNOLOGY OUTSOURCING MANAGEMENT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Driving Factors, Challenges, Opportunities, and Lessons in Developing Economies | Information systems/technology outsourcing is considered as an approach for information systems/technology management by chief information officers and organizations. Thus it is given due attention by various organizations and management because of the advantages it brings to them. Despite the advantages it brings, IS/IT outsourcing faces problems/challenges and risks at any point in the process that may even lead to failure before its...
