

Building iPhone Apps with HTML, CSS, and JavaScript

By Jonathan Stark

O'Reilly Media. Paperback. Book Condition: New. Paperback. 186 pages. Dimensions: 9.1in. x 7.0in. x 0.5in. What people are saying about Building iPhone Apps w HTML, CSS, and JavaScript The future of mobile development is clearly web technologies like CSS, HTML and JavaScript. Jonathan Stark shows you how to leverage your existing web development skills to build native iPhone applications using these technologies. --John Allsopp, author and founder of Web Directions Jonathans book is the most comprehensive documentation available for developing web applications for mobile Safari. Not just great tech coverage, this book is an easy read of purely fascinating mobile tidbits in a fun colloquial style. Must have for all PhoneGap developers. -- Brian LeRoux, Nitobi Software Its a fact: if you know HTML, CSS, and JavaScript, you already have the tools you need to develop your own iPhone apps. With this book, youll learn how to use these open source web technologies to design and build apps for the iPhone and iPod Touch on the platform of your choice-without using Objective-C or Cocoa. Device-agnostic mobile apps are the wave of the future, and this book shows you how to create one product for several platforms. Youll find guidelines for converting your product into...

Reviews

Good e-book and beneficial one. I was able to comprehend everything out of this published e pdf. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Mariana Schaden II**

The best book i at any time read. I am quite late in start reading this one, but better then never. I realized this publication from my dad and i advised this book to understand.
