ETHICAL ISSUES FROM THE ST. FRANCIS DAM FAILURE (PAPERBACK)

J. Paul Guyer, P.E., R.A.
 Paul Guyer is a registered and experienced professional engineer. He has over 30 years of experience in the design of bridges and related infrastructure. For the past 10 years he has been a principal engineer in the California Department of Transportation and has been involved in the design and construction of several bridges. He is a member of the American Society of Civil Engineers, the American Society of Professional Engineers, and the California Society of Professional Engineers.

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English. Brand New Book ***** Print on Demand *****. At 11:56 PM on March 12, 1928, the concrete arch St. Francis Dam was a key element of the Los Angeles (California) Aqueduct. It was designed and constructed by the City of Los Angeles Department of Water and Power (LADWP) to create a reservoir to store water brought via the Aqueduct from the Owens Valley in east central California...

Reviews

This ebook could be worthy of a go through, and a lot better than other. I have study and that i am sure that i will likely to read through yet again once more in the future. I found out this pdf from my i and dad suggested this pdf to discover.

-- **Lorine Rohan**

I actually started out reading this book. It can be packed with wisdom and knowledge I discovered this ebook from my dad and i suggested this book to understand.

-- **Prof. Barney Harris**

Thorough manual for publication fanatics. It is actually rally intriguing through reading through period of time. Its been written in an remarkably simple way and is particularly only after i finished reading through this book in which actually transformed me, change the way i think.
