

The Psychology of Belief (Paperback)

By James Lindsay

Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Belief in its higher forms, we are told, is a movement of our being so central and fundamental that its issue is life. It influences activity in every sphere of individual being. It is a psychology and not a rhetoric which claims for faith or living belief every Marathon, every Thermopylae, which holds Socrates, Columbus, Washington as having been inspired and sustained by faith, which regards the creative faculty of genius as finding its very life so much in belief that without this, there would be no Homer, Dante, etc. - Journal of Religious Psychology, Volume 4.
