I am especially grateful to Professor Karlheinz Tannert for the many hours of discussions which guided me in my studies and without whose assistance this work could not have been completed. My thanks extend as well to Professor Stoll and Dr. Lemke of the Staatsbank for their cooperation, to the staff of the libraries at the Economics Section of Humboldt University, the Hochschule fur Okonomie - Bruno Leuschner, and the Staatsbibliothek, for their assistance, and to Dr. Heidrich for his aid and friendship. This research was supported by a grant jointly funded through the Ministry of Higher Education in the German Democratic Republic and the International Research and Exchanges Board in New York.
