CROSS INFECTIONS: TYPES, CAUSES PREVENTION (HARDBACK)

Nova Science Publishers Inc, United States, 2010. Hardback. Condition: New. UK ed.. Language: English. Brand New Book. Cross infection is the transmission of an infectious agent from one person to another because of a poor barrier protection as in patients and immunocompromised hosts. The most common are nosocomial cross infections, which are acquired at a hospital or other healthcare facilities such as outpatient clinics. This book analyzes infection control for healthcare workers, epidemiologists, administrations and those responsible for infection..
