Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

Surely the difficulties presenting themselves in opposition to Such a course of systematic home study do not compare with the task originally, undertaken by a Council of this College to found the College course of instruction, and which now occupies the very high position we are so justly proud of. If the Committee of Education will consent to reconsider this question I will be pleased to submit to them some few outlines of methods and inter mation in my hands.
