At the present time, the San Jose Scale exists in nearly every portion of the United States, the extreme Northern states alone, perhaps, being exempt. Published as Bulletin 135, December, 1901. It is here reproduced in slightly amended form. fAt a meeting of the Biological Society of Washington, D. C, held Nov. 16th, Dr. L. O. Howard stated that he had received a letter from Mr. C. L. Marlatt, announcing the discovery of the long-sought original habitat of the San Jose scale-insect; this was found to be in China, in the region to the South of the Great Wall. The scale-insect was preyed upon by a species of ladybird beetle, living examples of which were now on their way to the United States. --Science, Vol. XIV, No. 362, p. 895, Dec. 6, 1901.
