Brand New Book ***** Print on Demand *****.Excerpt from Thematic Guide Through the Music Parsifal With a Preface Concerning the Traditional, Material of the Wagnerian Drama Those who have criticised Richard Wagner s dramas have for the most part made the mistake of measuring them, because they treated of ancient German or mediaeval legendary materials, according to the standard of already existing Teutonic poems based on materials of the same kind. For Tristan, the epic of Godfrey of Strassburg afforded the standard; for The Ring of the Nibelungen, the Nibelungenlied. Those who had perceived that Wagner s Nibelung -poem has but little in common with the Nibelungenlied, brought forward instead of the latter the Edda-songs, and treated the new drama as a dramatization of those ancient Skaldic poems; which brought upon our poet the reproach of having forsaken German soil to gather his materials in the foreign soil of Iceland. All this is erroneous and very foolish. Wagner s materials, to indicate them thus briefly, are far more ancient than the Skaldic settings of ancient dogmatic and legendary memory in the Northern country, which have been handed down to us only confused and dismembered; to say nothing of the epical compilations by the knightly and commoner singers of the 13th century in Germany.
