The University of Michigan Press, United States, 1998. Hardback. Book Condition: New. 218 x 157 mm. Language: English . Brand New Book. The University of Michigan Press is pleased to announce the first volume in an annual series, The World Trade Forum. The Forum s members include scholars, lawyers, and government and business practitioners working in the area of international trade, law, and policy. They meet annually and discuss integration issues in international economic relations, focusing on a new theme each year. The central topic of the first World Trade Forum is state trading. To what extent has trade liberalization, as we have experienced it over the last fifty years, affected property ownership? Contributors to the 1998 World Trade Forum explore this question, examining both state practice and the regulatory framework. Their discussions are divided into three parts: Part 1 looks at the World Trade Organization s legal framework for state trading enterprises, taking on such issues as monopolies and state enterprises, the WTO Antidumping Agreement and the economies in transition, and relationship of state trading and the Government Purchasing Act. Part 2 deals with regional experiences in state trading (for the EC, United States, Canada, Japan, China, and Russia). Part 3 examines conceptual issues such as auctions as a trade policy instrument and rule-making alternatives for entities with exclusive rights. The conclusion synthesizes the foregoing chapters in discussing the reach of modern international trade law. Contributors are Frederick Abbott, Ichiro Araki, Christian Bach, Jacques H. J. Bourgeois, Thomas Cottier, William J. Davey, Vladimir Dbrentsov, Toni Haniotis, Bernard M.
