Ninety days from bankruptcy, Apple welcomed home its founder in 1996. In less than a decade, Steve accomplished the impossible - Apple was now a trillion dollar juggernaut. Their domain included Music, Books, SmartPhones, Tablets, Laptops and more. Within these pages are the often overlooked, misunderstood or misrepresented lessons that made it all possible and you won't find them anywhere else. Steve Jobs weathered the deepest betrayals, endured relentless public humiliations and was pushed to the brink of bankruptcy. When he returned to the company he had co-founded, he was welcomed home by an Apple that was just as battered and bruised as he was, and on the brink of the abyss. How these two entities, Steve the man, and Apple the company, healed each other, is well worth learning. Grab your copy of Anatomy of an Apple - The Lessons Steve Taught Us today!
