Jessica Kingsley Publishers. Paperback. Book Condition: new. BRAND NEW, The Secrets in Their Eyes: Transforming the Lives of People with Cognitive, Emotional, Learning, or Movement Disorders or Autism by Changing the Visual Software of the Brain, Melvin Kaplan, Manuel Casanova, Vision therapy techniques can correct not only visual problems, but also cognitive, emotional and physical difficulties. Based on the pioneering work of Dr Melvin Kaplan, this research-based book explains the basis of vision therapy, who it can help, and the outcomes it can bring. Visual perceptual problems can cause an array of difficulties, from reading and writing, to issues with balance, clumsiness, and tunnel vision. Severe symptoms can lead to a diagnosis of anxiety, depression, learning disability or even autism. In this groundbreaking book, Dr Kaplan shows how these symptoms point to interventions that change the way that the eyes process information, permanently counteracting visual deficits and impacting on behaviour. Case studies demonstrate how to plan and implement visual management programs according to a patient's symptoms, illustrating the wide range of life-changing results that vision therapy can achieve for people of all ages, regardless of severity of symptoms. Dr Kaplan also shares his expert knowledge of ambient yoked prisms - a tool that transforms light to alter visual stimulation, dramatically transforming perception and cognition. This accessible book presents readers - including parents and families, clinicians, and other professionals working with individuals with visual perception problems - with a comprehensive introduction to the benefits and methods of vision therapy.
