Cosimo Classics. Paperback. Condition: New. This item is printed on demand. 516 pages. After enjoying years as a popular journalist and poet, intellectual and freethinker Gerald Massey turned his vast studies in the field of Egyptology into A Book of the Beginnings, a bold statement that the origin of all civilization lays in ancient Egypt. His assertions, radical at the time-indeed, almost a century before the discovery of three-million-year-old human remains in Africa-resonate loudly today, when molecular biology is making corresponding discoveries alongside the still-raging creation-versus-evolution controversy. In Volume I, Massey lays the foundation of the Egypt-centric position through a scholarly comparative analysis of language, names, and mythology-delving not only into our most basic actions of naming and communicating, but also mans beloved, universal myths of death, awakenings, and love. British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including The Natural Genesis and Ancient Egypt: The Light of the World. This item ships from La Vergne,TN. Paperback.
