University of Tennessee Press. Paperback. Book Condition: new. BRAND NEW, Investigating Our Experience in the World: A Primer on Qualitative Inquiry, April L. Properly known as "existential-hermeneutic-phenomenology" (or simply phenomenology in everyday usage), this style of scholarly investigation has been applied to illuminate a wide range of research questions in fields such as psychology, child and family studies, marketing, nursing, communications, political science, and more. Rounding out discussion of the research procedures is a full chapter devoted to writing the research report. The book concludes with a section answering common questions about this style of phenomenological research. Appendices provide a glossary, sample forms, and references for further study. Aspects of real-world research projects are continually highlighted, illuminating key methodological points. Morgan recognizes the primary...
