## Trenching and subsoiling for American vines

By Raymond Dubois

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 42 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1901 Excerpt: . . . fixed to a bed-plate, fastened to a chain n g n secured to two anchors N N, or may travel laterally on rails. In the first case, a beam N (Fig. 38), 8ft. 6in. x4ft. 3in. in section, and 3ft. 3in. at least in length, is buried in a trench 12 inches deep; behind this beam, and in a slanting direction, two pegs p are driven into the ground, in such a manner that the points be further apart than the heads, a gudgeon B passed through a ring of the chain n rests behind the pegs, the traction of the chain being rendered even on the beam N. If we study Plate I. again, we see that when working, the capstan A exerts a traction on g in the direction of arrow 2, equal to the sum of the resistances of the plough C and...
