Technical Traders Ltd., United States, 2014. Paperback. Condition: New. Language: English . Brand New Book. This book, written for both traders and investors, explores the tools and techniques that discretionary and algorithmic traders need to profit in today's competitive markets. Divided into segments, this guide shows you how to incorporate simple logical trading strategies into a step-by-step checklist to execute. Along the way, you will learn a method of analysis that focuses on specific market structure patterns the author has used profitably for over a decade, psychological techniques to reduce emotional interference, and a new concept called INNER-Market Analysis that provides accurate price forecasting. You also will come to a new understanding of the importance of position sizing and trade management. Created with the serious trader and investor in mind whether beginner or professional Technical Trading Mastery puts the author's approach in perspective, and it will put you on the path to win. Topics covered throughout the book include everything from understanding who you are, the foundations of market structure, trend identification, cycle analysis, volatility, volume, what to trade and, trade management. Finally, it tells you how to put it all together so that you have a tested tradable system to follow. These 7 SIMPLE STEPS TO WIN WITH LOGIC - along with the tools and techniques provided - will give you the edge needed to improve your trading and investing results dramatically.
