Dover Publications Inc., United States, 1987. Paperback. Condition: New. Language: English . Brand New Book. This exciting coloring book -- the first of its kind -- chronicles the amazing story of man-made flying machines. A. G. Smith's carefully rendered illustrations trace the history of aircraft, beginning with Leonardo da Vinci's design for the wing-flapping ornithopter, continuing with eighteenth-century hot-air balloons and nineteenth-century dirigibles, and concluding with such twentieth-century heavier-than-air craft as helicopters, jet fighters, and the space shuttle. Forty-seven precise line drawings include: the history-making Wright Brothers Flyer (1903); the spunky World War II British Spitfire; the Messerschmitt ME 262 A, the first German jet (1945); the Bell X-1, the first manned aircraft to exceed the speed of sound (1947); and the Concorde Supersonic Transport, developed jointly by the French and the English (1969). An informative caption describes each craft -- its innovative design, functions, and military or historic role. Educational as well as entertaining, this well-researched pictorial display is sure to please colorists of all ages as certainly as it will thrill anyone fascinated with man's conquest of the air.
