Stylus Publishing. Paperback. Book Condition: new. BRAND NEW, Documenting the Educational Benefits of Diversity in Higher Education: Promoting a Twenty-first Century Paradigm of Teaching and Learning, James A. Anderson, The demands of the 21st century are challenging higher education to pursue greater excellence and improve national competitiveness. Among the challenges are the demographic changes that require enhancing institutional capacity to serve diverse populations; and societal needs to educate students to become effective global citizens and leaders. Success will be directly correlated with the degree to which institutions embed diversity and globalism at the very heart of their activities and evaluate the impact of this investment. While charging institutional leaders with the responsibility for organizational change, it stresses the critical role of faculty in changing the teaching and learning paradigm, diversifying or transforming the curriculum, and empowering the voices of diverse students. It calls for strategically linking diversity and globalism to teaching and learning outcomes. The book offers numerous examples of institutional and faculty initiatives that have successfully used diversity and collaborative pedagogies to...
