A Course of Lectures in Natural and Experimental Philosophy, Geography and Astronomy: In Which the Properties of Natural Bodies Are Exhibited and Explained on the Principles of the Newtonian Philosophy. by Benjamin

By Benjamin Martin

Gale Ecco, Print Editions, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Medical theory and practice of the 1700s developed rapidly, as is evidenced by the extensive collection, which includes descriptions of diseases, their conditions, and treatments. Books on science and technology, agriculture, military technology, natural philosophy, even cookbooks, are all contained here.++++The below data was compiled from various identification fields in the bibliographic record of this title. Reviews

A brand new e-book with a new viewpoint. I actually have read and so i am certain that i am going to gonna read again once more later on. I am quickly could get a pleasure of studying a published ebook.

-- **Anastasia Kerluke**

A top quality ebook and the typeface used was interesting to read through. It is rally intriguing throug reading through period. You wont feel monotony at anytime of the time (that's what catalogues are for relating to when you ask me).
