

## Peterson First Guide to Astronomy, Second Edition

By Jay M. Pasachoff Professor of Astronomy

Houghton Mifflin Harcourt. Paperback. Book Condition: New. Paperback. 128 pages. Dimensions: 7.2in. x 3.8in. x 0.5in. Completely revised with all-new photographs and covering astronomical events through 2019. The second edition of the Peterson First Guide to Astronomy provides an up-to-date introduction to astronomy for beginners, featuring all-new photographs of recent events such as one taken from the MESSENGER spacecraft, which launched in 2004 and entered its orbit around Mercury in 2011 and predictions for future events through 2019, including meteor showers, comets, and eclipses. The book encourages readers to go out into the field, using the maps that show the positions of the stars throughout the year as a guide. This new edition maintains the easy-to-use condensed format of the original, and makes it easy to proceed to the full-fledged Peterson Field Guide to Stars and Planets for more in-depth information. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

### Reviews

*This publication is definitely not effortless to get going on reading through but really exciting to read through. it was actually writtern really properly and beneficial. I am just very easily could get a delight of reading through a created publication.*

-- Gino Jerde Jr.

*Complete information for publication fans. Better then never, though i am quite late in start reading this one. Its been written in an extremely straightforward way in fact it is just soon after i finished reading this ebook in which basically altered me, change the way i believe.*

-- Ellie Stark
