Using the Brilliant Elabtronics Modules!: How to Use a Fantastic Series of Low Cost, Universal Electronic Modules to Modify Your Car, Make Alarms, Monitor Temperature and Speed - And Do a Whole Lot

By Julian Edgar

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book is about using the electronics modules produced by eLabtronics. These electronic building blocks - especially the Multi Purpose Module - can perform functions limited only by your imagination. The Multi Purpose Module does not require user software reprogramming to perform different functions - instead you need adjust only two on-board potentiometers (pots) and set a 5-way DIP switch to the correct positions. That makes set-up very quick and easy. The Multi Purpose Module is available in different forms - it can be a voltage switch, a timer, a device that outputs a pulsing signal. and so on. The hardware remains the same - just the software has been pre-altered. So have fun - wiring and set-up are dead-easy and you don t have to do any programming, let alone printed circuit board soldering! The approach is perfect for people who want quick electronic results - inventors, car modifiers, students, and those just learning about electronics.
