Excerpt from The Maritime Medical News, Vol. 16: A Monthly Journal of Medicine and Surgery; September, 1904 We are under a deep debt Of gratitude to the members of the special committee, and especially to Dr. T. G. Roddick for his untiring efforts to get this measure placed upon the statutes of the country, and it is with great regret that I notice so much misapprehension as to the scope and powers of this bill still exists in certain quarters. It has been thought that it would encroach upon the rights and privileges of the different Provincial Medical Boards and interfere with their autonomy, and I gladly hail this Opportunity to say a few words which may help to remove this misapprehension. It was, and is, not in any way intended to interfere with existing provincial rights or intrench upon the prerogatives Of provincial medical boards. As an instance, in my own native province, Quebec, our French speaking brethren will have the right to examination in their own language. Provincial registration and provincial boards will still continue to exist, and each province will be at liberty to fix whatever standard it pleases for its own practitioners. They can, where they wish, continue to exist as examining boards with power to grant provincial licenses as they now do, and in any case in their hands will be left all matters relating to taxation and professional discipline.
