Garymdietz, United States, 2014. Paperback. Book Condition: New. 214 x 138 mm. Language: English . Brand New Book ***** Print on Demand *****.Dads of Disability is a collection of 41 essays and poems rich in context and imagery that illustrate a father's perception of and reaction to being a father of a child that experiences disability. From before and through birth, to diagnosis, to the workplace, to serious medical or behavioral issues, to father's support circles, and much more-including aging and death-many inflection points are explored by the fathers themselves as well as the mothers and children in their lives. Each entry focuses on male and fatherhood themes. This is not a how-to book or a book of 5-ways to do this or 10-ways to do that. Rather, this collection uses a storytelling approach to illuminate the emotional lives of these fathers. Dads of Disability will begin or extend the conversation between and amongst fathers, mothers, extended families, care circles, and individuals with disabilities themselves. This book is for fathers and mothers. For friends and support circles. For care professionals. For teachers. For friends trying to understand their neighbor's challenges. For anyone interested in the variety of the emotional lives of fathers whose children experience a disability. Regardless of the age of the father, the child's challenge, or even the gender of the essayist (remember, they are not all men!), Dads of Disability strives to paint pictures of a variety of different men who have one thing in common-they deeply love a child who experiences a disability. Topics of essays and poems include: - A woman who chooses to live with her ex-husband to enable her children's father to continue to be in their life on a regular basis. - On his way back from...
