Brand New Book ***** Print on Demand *****.THE PSALMS AND ODES OF SOLOMON are two separate texts, both titled with the name of King Solomon, but appear to have a more first century authorship. They both contain beautiful imagery and intriguing perspectives - some confirming to traditional faith and belief, and others challenging traditional thought. The core of this text is valuable both for the academic reading, but also for the faithful of many faiths; and even the casual reader will find value and entertainment from the body of the text. THE NON-CANONICAL COLLECTION is a series of texts which claim internal religious value, but have never been fully accepted as official cannon of any major sect. Each book in the series preserved in reference format for the reader, researcher, scholar, and student to determine the value of the text on their own. 873 REFERENCE PUBLISHING is dedicated to preserving valuable texts in their original format for the purpose of research and references.
