PULLING DOPED-YAG SINGLE-CRYSTAL FIBERS

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Growth, Characterization, and Applications | Pulling bulk crystal into fiber is suitable for device applications in optical communications because of its structural similarity to silica fiber. Among fiber growth techniques, the laser-heated pedestal growth method (LHPG) was adopted. It is crucible free and can therefore produce high-quality single crystals. However, interface loss of the fiber is one of the main causes of optical loss. In order to reduce the loss, a proper...

Reviews

This book is definitely not easy to get going on reading through but extremely exciting to see. I am quite late in start reading this one, but better than never. I am pleased to explain how here is the finest book i actually have read inside my individual daily life and may be he best book for ever.

-- **Mrs. Ellie Yost II**

An extremely wonderful ebook with lucid and perfect explanations. I was able to comprehend almost everything using this composed e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
