Excerpt from Tales of Four Nations, Vol. 2 of 3: In Three Volumes If Constance had felt admiration at the gallant and gentle bearing Of Beaufort, how much more did she now feel on hearing the sufferings he had undergone, the perils he had encountered, and all freely, generously borne to rescue an injured and unhappy monarch from thralldom and the custody of foes? She looked at the animated and handsome features of the warrior in silent admiration, and could only answer his narrative by falling on his shoulder, and weeping. Hope now had enlivened a cheerless prospect, and she saw in the union between Warwick and Beaufort a consolidation of interest which would secure her own. She tried to speak, but found it impossible - her heart was too full. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
