Excerpt from A History of Travel in America, Vol. 3: Showing the Development of Travel and Transportation From the Crude Methods of the Canoe and the Dog-Sled to the Highly Organized Railway Systems of the Present Could adequately portray the importance in its relation to the affairs of the people - which stage-coach traffic assumed during the period between 1800 and 1840. During the years in question it was the only means by which a large part of the population could accomplish overland journeys, and even in those instances Wherein rivers and canals were available for some portions of the expeditions to be undertaken, travellers often had to resort to the stage-coach for considerable parts of the distances traversed. There was no general thought of the future possibility of more comfortable and rapid means of over land conveyance, and all those Circumstances of progress.
