COMPUTATIONAL FLUID DYNAMICS APPLICATIONS IN FOOD PROCESSING

Springer-Verlag New York Inc. Paperback Condition: New. 86 pages. Dimensions: 9.0in x 6.0in x 0.5in. Computational Fluid Dynamics (CFD) has been applied extensively to great benefit in the food processing sector. Its numerous applications include: predicting the gas flow pattern and particle histories, such as temperature, velocity, residence time, and impact position during spray drying; modeling of ovens to provide information about temperature and airflow pattern throughout the baking chamber to enhance heat transfer and in turn final product quality; designing hybrid...

Reviews

The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Erica Turcotte**

This ebook is great. I am quite late in start reading this one, but better then never. I am just easily will get a satisfaction of reading through a composed pdf.

-- **Brendan Doyle**
