Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from *Chemistry in America: Chapters From the History of the Science in the United States* The writer has lectured for several years to his graduate students on the development of Chemistry in the United States. A mass of material has been collected, most of which is not only interesting but valuable. Repeated requests have been made for the publication of these facts as a history of chemistry in the United States. To the writer's mind the information in his possession is not sufficiently complete to warrant such an important undertaking. The earliest endeavors of our country's scientists require even more careful and extended searching out. Three addresses, delivered before the Chemical Society of Philadelphia, are included in the material collected by the author. These exhibit an earnest interest in chemistry in the early days of the Republic, and show, also, that despite unfavorable conditions our forefathers were eager to cultivate the science that promised so much for their country. Another proof of the genuine appreciation of the value of chemistry is evidenced by the founding of two Chemical Societies before a similar movement had been initiated anywhere else in the world. Minutes of these organizations have not been discovered. If found, they would surely contain most valuable information.
