It is just one of my personal favorite publications. It is among the most awesome publications I have read. It is extremely difficult to leave it before concluding, once you begin to read the book.

Stella is brave, fearless and visually impaired. Her Star Quality gives her night vision, as she travels the Universe along with her Star Guide, Rocky to rescue the Star People in danger. Stella must rely on her emotions, senses of hearing and touch to identify the colours she comes across in her adventures. In this action packed fable, Stella and Rocky along with the help of the mighty Star Warriors go on an intense and gripping adventure to save the planet of Mars. Can Mars and its Star People be saved? Or is it just too late? Many children do not understand disabilities. Likewise, many parents are not sure how to explain impairment to a curious child. This book gives insight into what visual impairment is from a child s perspective, in a natural but imaginative way, and at the same time portrays the disabled child in a heroic manner. It may be a source of inspiration to those families or children who are learning to deal with impairments.
