Sky Blue Press, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Auletris is a recently discovered, previously lost collection of erotica by Anais Nin, consisting of two major sections: Life in Provincetown and Marcel. A drastically cut version of Marcel appears in Nin s bestselling Delta of Venus, and Life in Provincetown has never been published until now. Written in the early 1940s for a collector at a dollar a page, the erotica was also given to agents to sell far and wide. Auletris was sold to Milton Lubovitsky in 1950; Lubovitsky typed up five copies and sold them under the imprint of Press of the Sunken Eye to private buyers under the table. One of these copies surfaced when it was being offered in an auction, and it was then discovered that this collection had been lost to the public for decades. Once the authorship was verified, it was readied for true publication. Life in Provincetown is a collection of interwoven stories set in one of Nin s favorite haunts and is populated with bohemian characters who engage in tabooed sexual behavior, all described in Nin s classic poetic prose. Marcel is another set of stories set mostly in Paris and is largely autobiographical, with many of the characters and situations taken directly from Nin s diaries. It is three times longer than the version in Delta of Venus and contains many lengthy passages, stories even, that were cut and never before published. Auletris is the first new Anais Nin collection of erotica since Little Birds in 1979.
