When entering upon the study of the profession, with the pursuit of which my success in life was to be identified, a curiosity was awakened to learn something of its history in our own Commonwealth. But to inquiries upon the subject, I found little that was satisfactory. The ordinary sources of historical information furnished little from which the systems of judicature or the forms and changes of judicial process in Massachusetts, could be learned; and while the actors in the events of its political, ecclesiastical and military history had been remembered, comparatively most of those who had taken part in the administration of justice had been forgotten. So obscure was this department of our history found to be, that nothing but an elaborate research seemed adequate to a satisfactory development of its details.
