PearlStone Publishing, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Dreams, most people have them but few understand them and what they are for. Over the course of 30 years I have received many revelations through visions and dreams. Most of which I found to be meaningless, worthless, confusing, misleading and distrustful. But there were some that made me wonder a great deal. I have grown into a lucid dreamer which makes them even more curiously intriguing and captivating to say the least. This caused me to question what I had thought over the years concerning dreams in the night. After looking deeper into what is known as mere images in the mind at night while I slept, I have come to believe that these experiences were actually other realities. After dreaming of future events and watching them come to pass, I was persuaded that what I was seeing in my sleep was real. I have come to believe through dreams the invisible is seen, mysteries are known, the spiritual world is discovered, the past and future are visited, and knowledge is increased that couldn't otherwise be attained through the physical. I believe sounds are heard that couldn't otherwise be heard, worlds, planets, other dimensions and the one that resides on them are seen in close view. I've found these experiences to be adventurous, dramatic, exciting, exploring, daring, informative, profoundly captivating, and fascinating. So if you are a dreamer, go ahead and explore your gift in light of GOD'S WORD - because GOD'S WORD is the only safeguard against any misleading that can come to you in the night.
