## FESSENDEN - BUILDER OF TOMORROWS

Ramsay Press. Hardcover. Book Condition: New. Hardcover. 380 pages. Dimensions: 8.6in. x 5.6in. x 1.2in. BUILDER OF TOMORROWS by HELEN M. FESSENDEN. First published in New York 1940. FOREWORD: To THE WORLD of Today and the World of Tomorrow, worlds alike benefited and enriched by the life of Reginald A. Fessenden, I give the man himself. That the mind which conceived the correct theory of wireless transmission, which invented the Wireless Telephone and with it accomplished the first Broadcasting, which invented and developed the Fathometer and all it implied, that this mind failed to defend itself against commercial assault, whether financial or scientific, is an inescapable fact. For this fact I make no apology. Mine is the setting forth of factual data, an indication of trends, not the indictment of any man or group of men. Without a straightforward account of certain legal encounters, the life of my husband would be but partly told. The outcome of these encounters is a matter of court record which he who runs may read. It is however not by court decisions but by his work that the man will be remembered. It is a pet idea of mine that one gets more real truth out of one avowed partisan than out of a dozen of your sham impartialists who in sheep's clothing simpering honesty as they suppress documents. After all, what one wants to know is not what people did, but why they did it or rather why they thought they did it and to learn that you should go to the men themselves, their very falsehood is often more than another man's truth. Contents include: CONTENTS I. FOREBEARS AND CHILDHOOD . . . 3 II. SCHOOL AND COLLEGE 13 III. BERMUDA 23 IV. NEW YORK 27 V. A YANKEE BOY AND A CHINA...
