Potomac Books Inc, United States, 2016. Hardback. Condition: New. Language: English . Brand New Book. Behind the buildupWhile the world's attention is focused on the nuclearization of NorthKorea and Iran and the nuclear brinkmanship between India and Pakistan,China is believed to have doubled the size of its nuclear arsenal,making it the forgotten nuclear power, as described in Foreign Affairs. Susan Turner Haynes analyzes China's buildup and its diversification of increasingly mobile, precise, and sophisticated nuclear weapons. Haynes provides context and clarity to this complex global issue through an analysis of extensive primary source research and lends insight into questions of why China, is the only nuclear-weapon state recognizedunder the Nuclear Nonproliferation Treaty that continues to pursuequalitative and quantitative advancements to its nuclear force.As the gap between China's nuclear force and the forces of the nuclearsuperpowers narrows against the expressed interest of many nuclearas well as non-nuclear states, Chinese Nuclear Proliferation offers policy prescriptions to curtail China's nuclear growth and to assuage fearsthat the American World Order presents a direct threat to China'snational security. Presenting technical concepts with minimal jargon,in a straightforward style, this book will be of use to casual Chinawatchers and military experts alike.
