

A Guide to the Day-flying Moths of Britain (Identification Chart)

By Lewington, R.

Field Studies Council, 2006. Condition: New. , colour illustrations. . Chart. NEW. . This fold-out chart shows 103 species of day-flying macro-moths, including a few very common species that are not strictly day-flying but are regularly disturbed from vegetation by day. Paintings show the adult moths at life size (a small number are at x1.25) and in their natural resting postures. The text provides further information about the habitats and distribution of the species illustrated. [9781851532155].
